WE ARE LOOKING FOR YOU!

DRAFTSMAN

ABOUT YOU

- Bachelor's degree in engineering or architecture, Diploma in Drafting/ Engineering Course.
- Autodesk, Infrastructure Suite-related certification.
- 2 to 5 years of Experience.
- Marine works specific projects preferred – demonstrated delivery of drawings/visualizations.
- Must be able to operate AutoCAD software proficiently, 2D & 3D preferred and beneficial.
- Provision of accurate and clear drawings with required dimensioning and notes.

JOB DESCRIPTION

- Understanding of industry-standard drawing practices, formats, and conventions (e.g., scaling, dimensioning, title blocks). Familiarity with various drawing sizes and their appropriate usage.
- Ability to incorporate project-specific requirements, benchmarks, tidal levels and chainages into the drafting process. Proficiency in detailing as per specific engineering or architectural standards.
- Ability to create visualizations in 2D and 3D in the project scope area using design software to enhance communication and understanding, as well as to gather information about quantities.
- Knowledge of proper archiving practices, ensuring sketches, comments, and drawings are appropriately documented and accessible. Competency in digital file management, including backup and uploading of drawings to a server.
- Assist in preparing quantity calculations/take-offs in a systematic and accurate manner to ensure clarity of scope of work.

If you are interested, submit your CV to: careers@plc-contracting.com

WE ARE LOOKING
FOR YOU!

SENIOR DRAFTSMAN

ABOUT YOU

- Diploma Degree in Engineering and / or drafting, BIM Certification.
- Marine Construction experience is mandatory.
- Demonstrated project experience, marine works, structures, coastal protection, quay walls, precasting ops, formworks, reinforcement detailing & scheduling (bar bending schedule) and the general scope of PLC works.
- Autodesk application, Sketch Up, Infrastructure Suite, and other 3D visualization packages.
- Strong 2 D & 3 D skills with fast turn around.
- Ability to visualize effectively.
- Deliver high production drawings.
- Sequence drawings / Activity Splits/ Kinematics etc.
- Construction Inspection works drawings.

JOB DESCRIPTION

- Create, review, and modify detailed technical & presentation drawings based on project specifications and requirements. Ensure that all drawings are accurate, compliant with industry/company standards, and reflect the latest project changes. Use advanced 2D and 3D design tools along with visualization applications to effectively communicate project concepts and technical details.
- Conduct site visits as needed to verify project progress, gather measurements, and address any design discrepancies. Work with field teams to ensure that designs are implemented correctly.
- Assist in preparing quantity calculations/take-offs in a systematic and accurate manner to ensure clarity of scope of work.
- Create, review, and modify 3D models for visual presentations & volume calculations requirements using applicable software and tools.

If you are interested, submit your CV to: careers@plc-contracting.com
