CLIENT INTERVIEW SHORTLY WALK IN INTERVIEW

ELV / PHYSICAL SECURITY ENGINEER

A qualified CAD Draftsman with a Diploma or Bachelor's degree in Engineering, Drafting, or a related technical field, bringing 3 to 8 years of focused experience in CAD drafting for ICT and ELV systems. Skilled in developing detailed AutoCAD drawings from BIM models provided by main contractors, with specific expertise in structured cabling, security, audiovisual, and control systems. Proven track record of working on large-scale projects such as stadiums, airports, and commercial developments, particularly within the GCC region. Adept at revising drawings based on mark-ups from design engineers and site teams, and coordinating with BIM coordinators to ensure accurate alignment between 2D drawings and 3D BIM models. Demonstrates a strong commitment to following company and project CAD standards, including layer conventions and naming protocols. Experienced in creating detailed layouts for cable routing, RCPs, SLDs, schematics, termination details, and IDF/MDF/SER rooms, as well as incorporating redline changes and maintaining precise as-built documentation. Collaborates effectively with MEP, civil, and architectural teams to resolve drawing conflicts and ensure cross-discipline consistency.

MEP BIM COORDINATOR

Bachelor's Degree in Engineering, Architecture, or related discipline. Minimum 4-6 years of experience in BIM coordination, with focus on ICT/ELV systems. Experience working on large-scale projects (stadiums, airports, commercial developments) in the GCC region is preferred. Autodesk Certified Professional (Revit, Navisworks) or similar certification is a plus.

CAD DRAUGHTSMAN

Responsible for developing detailed AutoCAD drawings for ICT and ELV systems—including structured cabling, security, audiovisual, and control systems—based on BIM models provided by the main contractor. Tasks include updating and revising drawings based on mark-ups from design engineers and site teams, as well as coordinating closely with BIM coordinators to ensure proper alignment between 2D drawings and 3D BIM layouts. Ensures all drawings adhere to company and project CAD standards, including layer conventions and naming protocols. Supports the creation of cable routing layouts, reflective ceiling plans (RCPs), single-line diagrams (SLDs), schematics, termination details, and layouts for patch panels, IDF, MDF, and SER rooms. Responsible for incorporating redline changes and maintaining accurate as-built documentation. Collaborates with MEP, civil, and architectural teams to resolve drawing conflicts and maintain consistency across disciplines. Additionally, manages drawing files efficiently, maintaining version control and document management through main contractor portals and frameworks.

Long Term Contract

Be a Key Player in Quality and Logistics

MATERIAL RECEIVING CHECKER

High school diploma or equivalent with 2-4 years of experience in material receiving or logistics. Strong coordination and inspection skills are essential.

Sharp, organized, and detail-oriented to ensure smooth and accurate material intake at our facility.

- Verify quantity and part numbers in delivery notes and IMPL
- Arrange materials truck-wise and job-wise for different customers
- Coordinate inspections with QC team
- Identify and report material shortages or excess
- Label internal lot numbers after system entry
- Coordinate with jigging team for prioritized movement
- Ensure all steel items are contaminant-free
- Confirm material weights match documentation
- Maintain DN/IMPL records and handle other tasks from Production Engineer or Foreman

GALVANIZING CHECKER

High school diploma or equivalent with 2-4 years of experience in a galvanizing or production setting. Attention to detail and ability to manage documentation are key.

To oversee and ensure the quality and accuracy of materials throughout the galvanizing process.

- Verify lot numbers and IMPL against the daily plan
- Check part numbers and quantities before/after jigging
- Coordinate with material handlers and forklift operators
- Ensure materials are clean and contaminant-free
- Record full quantities in Lot Completion Reports
- Ensure proper jigging methods – no parts touching
- Confirm galvanized quantity with offloading team
- Create and maintain job travel cards with full details
- Maintain proper records and assist as required by Production team

SHIPPING CHECKER

High school diploma or equivalent with 2-4 years of experience in shipping, warehouse, or logistics operations. Knowledge of packing lists and safety procedures is essential.

Play a vital role in ensuring only the best leaves our facility. Perfect for someone who thrives on accuracy and process.

- Receive QC-approved packed goods and verify quantities
- Apply correct ribbon color codes on parts/pallets
- Coordinate with forklift operator for shipping yard transfer
- Prepare shipment lots based on customer packing lists
- Monitor final truck loading with QC inspector
- Create truck loading reports and notify foreman
- Ensure quality, quantity, and safety in all shipments
- Handle materials for painting and direct-site delivery
