SHORTLISTING IN PROGRESS

ELV / PHYSICAL SECURITY ENGINEER

A qualified CAD Draftsman with a Diploma or Bachelor's degree in Engineering, Drafting, or a related technical field, bringing 3 to 8 years of focused experience in CAD drafting for ICT and ELV systems. Skilled in developing detailed AutoCAD drawings from BIM models provided by main contractors, with specific expertise in structured cabling, security, audiovisual, and control systems. Proven track record of working on large-scale projects such as stadiums, airports, and commercial developments, particularly within the GCC region. Adept at revising drawings based on mark-ups from design engineers and site teams, and coordinating with BIM coordinators to ensure accurate alignment between 2D drawings and 3D BIM models. Demonstrates a strong commitment to following company and project CAD standards, including layer conventions and naming protocols. Experienced in creating detailed layouts for cable routing, RCPs, SLDs, schematics, termination details, and IDF/MDF/SER rooms, as well as incorporating redline changes and maintaining precise as-built documentation. Collaborates effectively with MEP, civil, and architectural teams to resolve drawing conflicts and ensure cross-discipline consistency.

MEP BIM COORDINATOR

Bachelor's Degree in Engineering, Architecture, or related discipline. Minimum 4-6 years of experience in BIM coordination, with focus on ICT/ELV systems. Experience working on large-scale projects (stadiums, airports, commercial developments) in the GCC region is preferred. Autodesk Certified Professional (Revit, Navisworks) or similar certification is a plus.

CAD DRAUGHTSMAN

Responsible for developing detailed AutoCAD drawings for ICT and ELV systems—including structured cabling, security, audiovisual, and control systems—based on BIM models provided by the main contractor. Tasks include updating and revising drawings based on mark-ups from design engineers and site teams, as well as coordinating closely with BIM coordinators to ensure proper alignment between 2D drawings and 3D BIM layouts. Ensures all drawings adhere to company and project CAD standards, including layer conventions and naming protocols. Supports the creation of cable routing layouts, reflective ceiling plans (RCPs), single-line diagrams (SLDs), schematics, termination details, and layouts for patch panels, IDF, MDF, and SER rooms. Responsible for incorporating redline changes and maintaining accurate as-built documentation. Collaborates with MEP, civil, and architectural teams to resolve drawing conflicts and maintain consistency across disciplines. Additionally, manages drawing files efficiently, maintaining version control and document management through main contractor portals and frameworks.
