SHORTLISTING FROM 14TH JULY TO 18TH JULY 2026

ONLINE/VIRTUAL INTERVIEW SHORTLY

POSITIONS

PROJECT QUALITY MANAGER (MECHANICAL)

Experience working to European standards and procedures in QA/QC management, welding inspection activities, quality documentation, and applicable European codes and regulations.

Key Responsibilities:

- Establish, implement, document, and control the Project Quality Management System.
- Prepare the Project Quality Plan and related procedures as per contractual requirements.
- Plan, execute, and report project quality audits.
- Support the project team on client quality requirements and project quality issues.
- Define QA/QC requirements for subcontracted activities and support work requisitions.
- Coordinate site quality, expediting, and inspection activities for prefabrication work.
- Review subcontractor quality systems and technical proposals.
- Prepare weekly/monthly quality reports and manage non-conformities and corrective actions.
- Establish quality indicators and support quality induction presentations.

WELDING INSPECTOR

Experience working to European standards and procedures in welding inspection, QA/QC documentation, and applicable European codes and regulations. CSWIP certificate and valid driving license preferred.

Key Responsibilities:

- Coordinate welding specifications, codes/standards, WPS and PQR documentation.
- Coordinate with subcontractors and third-party NDT inspection company.
- Review welding defects and recommend remedial actions.
- Review radiographic films and NDT reports on a daily basis.
- Audit approved third-party NDT inspection company.
- Review inspection and testing methods for RT, PT, MT, and UT.
- Witness welder qualification tests, procedure qualification tests, and repair welding.
- Check hydrostatic test packages for NDT compliance.
- Monitor PWHT, weld selection for NDT, defective weld records, electrode control, and QC site welding inspectors.

Very Attractive Salary Package will be provided by company.
