DELTA RECO
... Recruitment made perfect

T & I INSTALLATION ENGINEER

Job Location : Malaysia (work from Malaysia)

Requirements :

- Manage jacket and topside activities, including planning, engineering coordination, fabrication readiness, loadout, transportation, offshore installation, and handover.
- Degree in Civil, Structural, Mechanical, Marine, Naval Architecture, or a related field.
- 5-8 years of relevant experience in offshore construction, marine operations, or T&I.
- Proven experience in offshore wind, jacket/topside installation, heavy lifts, loadout, transportation, and marine operations.
- Strong knowledge of seafastening, barge stability, ballasting, and offshore installation engineering.
- Familiarity with MWS requirements, installation vessels, risk management, and fabrication yard coordination.
- Knowledge of DNV, ISO, IEC, IMCA, and North Sea project/client standards.

Responsibilities :

- Plan and coordinate offshore installation and marine operations.
- Support jacket/topside installation, heavy lifts, loadout, and transportation activities.
- Coordinate with fabrication yards, MWS/CA, and installation vessels.
- Review installation procedures, seafastening, stability, and ballasting requirements.
- Manage construction interfaces, dimensional control, and installation risks.
- Ensure operations comply with project specifications, safety requirements, and applicable standards.
